

Title of the Abstract

Author name 1, Author name 2, Author 3

School name, City, State

(underline the author name who is going to present at this conference)

Email: Presenting author e-mail ID

Abstract length: 350–600 words (excluding title, affiliation, and biographical notes) • Follow the structure below

3-5 Key words related to your abstract

1. School & Curriculum

[Briefly describe the school, educational setting, curriculum/board, and relevant context. Suggested: 40–60 words.]

2. The Hook — Context & Problem

[In 3–4 sentences, identify the educational gap, classroom challenge, or community issue that motivated the project.]

3. The Pedagogical Approach — Methodology

[One paragraph of approximately 200 words. Explain how Project-Based Learning/Problem-Based Learning was implemented. Include: target grade level; course/subject; number of students; interdisciplinary subject integration; problem/project context; learning activities; duration; assessment approach; and any specialized technology, AI tools, or pedagogical frameworks used.]

4 Outcomes & Impact

[max 150 words, state what students achieved, learned, created, or discovered. Include concrete metrics or observable changes in engagement, skills, learning outcomes, problem-solving, collaboration, or community benefit, others if any where available.]

5. Biographical Note

[Approximately 50 words per presenting author. Include name, institution, grade level(s) taught, role/designation, and area(s) of expertise.]

Author 1: [50 words]

Author 2: [50 words, if applicable]
